International Conference

on

“Technological Practices in Education for Sustainable Development”

21st and 22nd September, 2021

Organized by

Department of Education
Mother Teresa Women's University

Venue

Mother Teresa Women's University, Kodaikanal

About the University

Mother Teresa Women's University was established in 1984, under the Act 15, with the lofty vision of “Women Empowerment through Education”. Mother Teresa Women's University (MTWU), has been rendering a noble service in empowering women of all social strata, especially the tribal and the most downtrodden women through higher education. The University has the pride of being the first Govt. Women's University in the State and the third in the Nation. Mother Teresa Women's University, whose foundation stone was laid by the legendary Nobel Laureate for Peace St. Mother Teresa, has been playing a catalytic role in building an inclusive nation through empowered women. Situated at Attuvampatti, Kodaikanal, the "Princess of hill Stations" and the most popular multicultural tourist centre MTWU provides a conducive ambience for academic and research pursuits. MTWU has widespread its strong wings at Madurai, Chennai, and Coimbatore with its Research and Extension Centres for encompassing woman aspirants from all over the State.

About the Department of Education

The Department of Education declared as “Centre for Excellence” by Higher Education Department, Government of Tamil Nadu is one of the vibrant departments in the University. Established in the year 1985, the department offers courses on M.Ed (General Education) , B.Ed Spl.Ed (ID) ,M.EdSpl.Ed (ID), M.Sc Guidance and Counselling, M.Phil and Ph.D programmes that empower students as future educators escalating them for General and Special Schools and Higher education institutions. The steadfast team of the department concentrate on teaching, research, consultancy and extension activities which contributes to the holistic development of the University. The emerging teachers are nurtured with inter-personal skills, team building, leadership qualities and entrepreneurship skills as part of the curriculum to meet out the competitive and recent innovations in the field of education.

About the Conference

Technology has the ability to enhance relationships between teachers and students by facilitating teaching and learning more meaningful and interesting. Technology in education enables students to adjust to their own pace of learning which builds 21st century skills. Technological applications enable for increase in student engagement and collaboration that supports both teaching and learning. Technology infuses classrooms with digital learning tools such as computers and handheld devices which expand course offerings, experiences and learning materials.

This conference aims to enable various practices and reformations in educational technology for sustainable development through keynote talks, paper presentation and deliberations. The main focus of this conference is to bring together Academicians, Researchers and potential Students to disseminate knowledge on the cutting-edge reformations on health and hygiene. It welcomes on innovations and reformative initiatives in the present scenario in constructing healthy and powerful society.

Objectives of the Conference

- To promote technological transformation in Education among academicians, researchers, students educators and practitioners working in India and Abroad.
- To focus upon progression in practice of educational tools and devices within the spheres of Education, Special Education, Physical Education and Yoga
- To integrate technology into education in a positive manner that promotes a more diverse learning environment for the students in futuristic classroom.
- To provide interdisciplinary platform for researchers, practioners and educators to present and discuss the most recent innovations and trends in educational technology
- To provide solutions for the practical challenges encountered both by academia and community across the world and solutions adopted for sustainable development through technology
